

IBM ES15G - Z/OS FACILITIES

Dauer: 4 Tage

Durchführungsart: Präsenztraining

Zielgruppe: This basic course is for persons who are new to the z/OS platforms but have a technical background in information technology. It is intended for those who require an in-depth understanding of z/OS.

Voraussetzungen: Basic knowledge of IS technologies and familiarity with z/OS concepts and how these systems support the Enterprise servers. This knowledge can be obtained by attending An Introduction to the z/OS Environment (ES05DE).
Practical experience with logging on to TSO and working with JCL. This experience can be obtained by attending Fundamental System Skills for z/OS (ES10DE).

Nr.: 36015

Preis: 3.290€ netto / 3.915,10 € inkl. 19 % MwSt.

Schulungsmethode: Presentation, discussion, hands-on exercises, demonstrations on the system

This classroom course introduces the base elements, optional features, and servers provided in z/OS. It focuses on the system service facilities provided by the z/OS Base Control Program (BCP). It teaches you the functions of major software base elements in the management of jobs, tasks, storage, data, and problems. It also addresses how these functions can be affected by the system programmer.

You will be introduced to the services provided by the servers which execute in the z/OS environments, such as the Communications Server and the Security Server. Installation packaging options and steps to install the z/OS environments also will be introduced.

Programm
